

Argentina engineering drilling rig customization

How many drilling rigs are there in Argentina?

International Drilling 2003 2004 2005 2006 16. 4 20 22 37. 9 Drilling, completion, workover and related drilling services in Argentina. Segment created through acquisition of DLS in August of 2006 - over 40 years of experience 2nd largest provider of land drilling & workover services in Argentina Fleet of 51 rigs - 20 drilling, 18.

What land rigs does DLs use?

DLS operates one of the largest fleets of advanced technology, AC-powered land rigs in Latin America, including Quicksilver and Ideal drilling units. These mobile, innovative land rig units are specifically designed to deliver safe and efficient operations.

Why should you choose Nabors pace-F rigs?

The PACE-F rigs have a hydraulic substructure and advanced walking capabilities for multi-well drilling, reducing flat time between sites. This remarkable achievement demonstrates Nabors' ability and expertise to deliver exceptional performance in challenging conditions. Automation Technologies in Action

What is a pace-F rig?

For instance, one of the first PACE-F rigs deployed in the region has set a new industry standard for drilling efficiency in the Vaca Muerta. PACE-F automated land rigs are specifically designed to enable quicker rig moves by reducing the number of loads during rig up and rig down and using hydraulic power instead of rig power.

How long does it take a pace-F rig to drill a well?

Just six months after spud, the rig successfully drilled an 18,500+foot well in just under 12 days, surpassing previous regional records. The PACE-F rigs have a hydraulic substructure and advanced walking capabilities for multi-well drilling, reducing flat time between sites.

How do our rigs work?

Our rigs are equipped with satellite connectivity with voice and data capabilities, supported by last generation IP telephony, ERP systems that can be accessed from all our rigs and operational bases, and the required software to handle our operations in an effective way.
