

Chengde Down-the-Hole

What is a Chengde down goat?

The Chengde Down is a Chinese breed of cashmere goat. It originates in Hebei Province in northern China, on the border with Liaoning and Inner Mongolia. If hornless it may also be known as the Yanshan Polled. : 371
The Chengde Down is a well-muscled goat of medium size. It has small erect ears, is usually bearded and may have tassels.

What is Chengde known for?

After the establishment of the People's Republic in 1949, Chengde grew steadily, and from the late 1950s it developed as a centre of heavy industry. There are coal and copper deposits to the south, while in the city itself there is a textile industry processing cotton and hemp.

Where is Chengde located?

Chengde, city in northern Hebei sheng (province), China. The city is situated in the mountains separating the North China Plain from the plateaus of Inner Mongolia, approximately 110 miles (180 km) northeast of Beijing, on the Re River (Re He; "Hot River"), a small tributary of the Luan River.

Why should you visit Chengde?

With a pleasant climate, time-honored history, beautiful natural sceneries and historical sites, Chengde well deserves its position as one of the most famous tourist cities in China. It is an ideal place for sightseeing and hunting, as well providing welcome relief from the summer heat.

Is Chengde a UNESCO World Heritage Site?

Since then, the Summer Palace and its surrounding temples, plains, lakes and mountains have been preserved, providing to Chengde uniqueness in all mainland China and farthest. To this point, this human masterpiece was listed to UNESCO's World Heritage Sites in 1994.

When did Chengde become a city?

Under the republic, in 1911 Chengde became a regular county and the surrounding area a special administrative district. In 1928 the Nationalist government established the new province of Jehol, with its capital at Chengde, and quartered the Zhenggui army there as a defense against Japanese expansion from Manchuria (Northeast China).
