

Fully automatic split down-the-hole drill rig

This integrated down the hole drill rig combines air compressor and drilling functions, perfect for DTH boring machine operations in mining.

It excels in production drilling and auxiliary applications such as toe-hole drilling. This smart, rugged machine features automatic rod handling, a unique aluminium feed, and an intelligent ...

Our land drilling rig systems give you an edge in today's most challenging drilling environments. Learn more about our high-tech drilling rig systems.

Down-the-hole drilling rigs | Choosing the right drilling rig You could need a drilling rig for a multitude of applications, for example to drill a well to access a ...

Discover how the right down-the-hole (DTH) drill rig can boost your mining and construction efficiency. Learn about rig types, key features, and ...

Another focus point is to further improve efficiency and reduce HSE risks by fully automating the drilling system. The land rigs are already able to trip in and out ...

What Are Split-Type DTH Rigs? Split-Type DTH Rigs are drilling machines where the drilling part and the air compressor are not in the same body. They are separate. This gives users more ...

Epiroc is a one of the leading drill rig manufacturers in the world. We offer rock drilling machines and other equipment for many different applications. For ...

The integrated open-air DTH drilling rig uses its single power to simultaneously drive the screw air compressor and the hydraulic system of the drilling rig. The most important advantage is ...

Developing systems which facilitate fully automatic operation of deep hole drilling machines is part of everyday life for the experts in Dettingen/Erms and many solutions are available as ...

Integrated Surface DTH Drill Rig An Integrated DTH (Down-the-Hole) Drill Rig is an advanced drilling system designed for efficient and precise drilling in hard ...

Equipped with a cab and automatic rod changing system that meets FOPS requirements as standard, and widens the heavy-duty walking mechanism to meet the requirements of rapid ...

Fully automatic split down-the-hole drill rig

The ZT44 is a down-the-hole surface drill rig designed for mining-duty applications. It offers high reliability and production with purpose-built structures, a high horsepower engine and large ...

Feida Mining Machinery Co., Ltd. has been researching and producing water well drilling rig, DTH drilling rig and supporting equipment for 20 years.FY series ...

The KT11 integrated down the hole drill rig for open use can drilling vertical,inclined and horizontal holes.mainly used for open-pit mine,stonework ...

1. Using its single power to drive the screw air compressor and drilling rig hydraulic system at the same time, compared with the separated DTH drilling ...

Mini drilling rig with rotary drill head, spt autohammer and push head for shelby tube, cpt, dmt, and auger anchors. Can be mounted on a pick-up truck.

When it comes to efficient and precise drilling, down the hole drills are essential tools for various industries. These powerful machines are equipped with key ...

Intelligent, automated and future-proof The SmartROC D65 down-the-hole drill rig brings the future of mining within your reach today. Give your operation the chance to profit from the ...

Designed for DTH blasthole drilling in mining, quarry and construction industries, it comes with an operator's cabin, fixed boom, dry dust collector and drill pipe changer.

Discover how the right down-the-hole (DTH) drill rig can boost your mining and construction efficiency. Learn about rig types, key features, and expert tips from Unite Machinery.

The LST1G+HDA, the newest of Lone Star Drills' geotechnical rigs, addresses the growing need for automatic hammers for soil sampling applications.

It combines the power of a DTH hammer with a fully integrated rig system, offering high penetration rates, accuracy, and operational flexibility. It is widely used for construction, green ...

As the key equipment for modern mining and infrastructure construction, ZGYX-420/420-1/420D series split open pit drilling rigs have attracted much attention in the industry due to their ...

There are two drilling method types of water boring machine / rigs, one is core drilling rig or rotary drilling machine, the other is DTH (Down The Hole) drilling ...

What Are Split-Type DTH Rigs? Split-Type DTH Rigs are drilling machines where the drilling part and the

Fully automatic split down-the-hole drill rig

air compressor are not in the same body. They are ...

It combines the power of a DTH hammer with a fully integrated rig system, offering high penetration rates, accuracy, and operational flexibility. It is widely ...

Hfga-52 Fully Automatic Double-Speed 191kw DTH Drill Rig Machine, Find Details and Price about Fully Automatic Integrated Down-The-Hole Drill Mine Blasting from Hfga-52 Fully ...

Leopard(TM) DI560 is a highly mobile, compact, diesel-powered down-the-hole (DTH) drill designed for DTH blasthole drilling in mining, quarry and construction industries. Features include a self ...

The down-the-hole drilling machine is suitable for large-diameter blast hole rock drilling operations in small and medium-sized mines, road construction, water ...

DR412i blasthole drill is designed to deliver dependable penetration and greater return on investment for rotary and DTH holes. From onboard automation that ...

Drilling rig Drilling the Bakken Formation in the Williston Basin Large hole drilling rig for blast-hole drilling A drilling rig is an integrated system that drills wells, ...

The SmartROC D65 down-the-hole drill rig brings the future of mining within your reach today. Isn't it time you gave your operation the chance to profit from the added intelligence of the ...
