

Germany Renault screw air compressor phone number

What are RKR screw compressors used for?

RKR screw compressors are suitable for entirely oil-free compression of air, nitrogen, process gas, digester gas, mine gas, landfill gas and biogas.

Where are Renner compressors made?

This not only applies to our area of expertise, screw compressors, but also to piston compressors and oil-free compressed air made in Germany. Whether frequency-controlled, with refrigeration dryer, mounted on an air receiver or as a complete compressed air station: energy efficiency is a matter of course at RENNER.

Who is Alup Compressors GmbH?

ALUP quickly made a name for itself as a manufacturer of car air pumps. ALUP Compressors GmbH now offers its customers much more. ALUP is internationally known for its efficient compressed air systems, which are optimally tailored to the needs of individual customers.

Who is Berg Kompressoren?

BERG Kompressoren GmbH has developed, manufactured and sold high-quality, efficient and cost-effective components and systems for compressed air technology, N₂ generators and O₂ generators. Competent advice, professional training and qualified service. We are known for being a fast growing and more creative family business.

Who is Renner Kompressoren?

RENNER Kompressoren, as a family-owned manufacturer of compressors, is flexibly structured and dynamically oriented to ensure that customers are always advised according to their needs. Our customers demand high quality, efficient systems as well as a positive price/performance ratio - this is the focus of our business.

How does a rotor compressor work?

Intake: The gas enters the open screw threads of the rotors through the intake opening. **Compression:** The intake opening is closed by the ongoing rotation of the rotors (synchronised by a gearbox), the intake volume is reduced (compressed) and the pressure rises. **Discharge:** The compression process is complete and the final pressure is reached.
