Does industrial air power rebuild rotary screw air compressors?

We rebuild your air end and return it to you, like new! Industrial Air Power is your premier resource for air-end rebuilds for all rotary screw air compressors from 10hp up to 1000hp. With thousands of remanufactured air ends completed since 2008, Industrial Air Power offers a reputable, reliable air end rebuilding service with unrivaled prices.

Who will repair an air compressor under warranty?

If you have a problem with your air compressor while it is under warranty, the manufacturer or a local service center will repair it for you. The home improvement centers won't repair it for you. They will simply refer you to the manufacturer or a local service center.

Can You rebuild an air compressor?

We can rebuild most air compressor brands we sell and service. Rebuilds include new gaskets, bearings, O-rings, repair of rotors, and seals, metalizing the shafts, inlet valve rebuild, and end plate repair if needed. We can also service the drive motor, "clean & bake" the windings, and install new seals and bearings on direct-drive units.

Does Screwfix take customer service seriously?

At Screwfix we take customer service very seriously, it's at the heart of what we do. Whilst we hope you never experience a problem with our products or service, we appreciate that occasionally things can go wrong. Should this happen, we want to hear from you so we can put things right as soon as possible.

Does air compressors direct repair air compressors?

Purchasing a compressor from Air Compressors Direct provides the same service options as purchasing one from your local home improvement warehouse. If you have a problem with your air compressor while it is under warranty, Air Compressors Direct will repair it for you, unlike home improvement centers.
