

Repair cost of various components of down-the-hole drilling rig

Do drill rigs need maintenance?

Source: Stephanie Seek/Cascade Drilling and Technical Services A drilling business works only as hard as its biggest assets: the drill rigs. Keeping them in top shape costs time and money, but ignoring maintenance is the surest way to unscheduled downtime.

Are remanufactured drill rig parts a viable alternative?

The efficient replacement of worn and damaged drill rig components is an ongoing need that is critical to meeting mine production goals. Throughout the industry, remanufactured parts are emerging as valuable cost-saving alternatives to new and rebuilt components.

What is a drill rig?

Drill rigs are mammoth structures used for drilling deep under the Earth's surface on land and the sea. These rigs serve as a foundation for a drilling operation as they hold all the equipment, machinery, and tools needed for the drilling operation, including the drill bit, drill string, drill pipe, rotary table, mud pumps, and more.

How do you manage a drilling rig?

Scheduling: Effectively plan and schedule maintenance tasks for drilling rigs, ensuring that routine checks, preventive maintenance, and repairs are conducted in a timely manner. This helps minimize downtime and maximize operational efficiency. **Inventory Management:** Keep track of spare parts, tools, and supplies needed for drilling rig maintenance.

Does rig source offer drill rig tooling packages?

We also offer drill rig tooling packages for direct push, geotechnical, hollow stem auger, core, and rotary drilling rigs, ensuring you get only the highest quality parts. Downtime costs you money, and no one understands that more than Rig Source.

Where can I find spare parts for a drill rig?

Look no further because here at Rig Source, we have an extensive inventory of parts for numerous drill rigs. We carry spare parts for top drill rig brands such as Diedrich, Atlas Copco, Geoprobe®, CME, Acker, Mobile Drill, VersaDrill Canada, GtechDrill, and many others.
