

Swiss fully automatic unmanned down-the-hole

A down-the-hole drill, usually called DTH by most professionals, is basically a jackhammer screwed on the bottom of a drill string. The fast hammer action breaks hard rock into small ...

Notwithstanding these benefits for the American public, current Federal Aviation Administration (FAA) regulations do not enable the domestic UA beyond visual line-of-sight ...

A BQM-74 Chukar III, turbojet-powered aerial target drone Unmanned aerial vehicles (UAVs) include both autonomous (capable of operating without human input) drones and remotely ...

Deep hole drilling plays an important role the production of these items and so, in order to keep up with the growing volume demands from an engineering ...

“Get ready for an exciting balloon-powered adventure! Use your skills to navigate through a world filled with physics-based obstacles, including winds and ...

Developing systems which facilitate fully automatic operation of deep hole drilling machines is part of everyday life for the experts in Dettingen/Erms and many solutions are available as ...

Discover our integrated drone detection system, optimized for vehicles, buildings, or 24/7 remote outdoor use. Designed for self-sustainability, our system operates seamlessly and effortlessly ...

The General Atomics MQ-9 Reaper (sometimes called Predator B) is a medium-altitude long-endurance unmanned aerial vehicle (UAV, one component of an unmanned aircraft system ...

This is a list of driverless train systems, which are capable of GoA3 and GoA4 (GoA3+) according to the Grade of Automation classifications specified by the standard IEC 62290-1. These are ...

Sandvik Mining and Rock Solutions is evolving its Leopard(TM) DI650i down-the-hole (DTH) drill rig to support fully autonomous operation. ...

The UT30MK2 is the latest generation armament system for armored personnel carriers (APC) developed by Elbit Systems. As a configurable unmanned turret, the UT30MK2 offers high- ...

Whether you want to battle Star Wars spaceships or shoot a cinematic masterpiece, one of these drones is going to be perfect for you.

Swiss fully automatic unmanned down-the-hole

From its Swiss headquarters to its operations across 35 countries, the company continues to redefine what is possible with unmanned helicopter ...

Shooting down drones is now an international pastime. In Ukraine, Russia, Sudan, Myanmar, and the Red Sea, militaries are scrambling to get ...

Fully Automatic DTH Bit Integrated Down-The-Hole Drill Rig for Rock Drilling, Find Details and Price about Drilling Rig Drilling Equipment from Fully Automatic ...

Discover our integrated drone detection system, optimized for vehicles, buildings, or 24/7 remote outdoor use. Designed for self-sustainability, our system ...

Leopard(TM) DI550 diesel-powered, down-the-hole (DTH) drill has enhanced mobility, a smaller footprint and can serve multiple sites. Designed for DTH blasthole drilling in mining, quarry and ...

The dream of building a manned deep ocean research submersible first started to move toward reality on February 29, 1956. Allyn Vine of Woods Hole Oceanographic Institution (WHOI) ...

Fully Automatic DTH Bit Integrated Down-The-Hole Drill Rig for Rock Drilling, Find Details and Price about Drilling Rig Drilling Equipment from Fully Automatic DTH Bit Integrated Down-The ...

Fully stealth aircraft carry all fuel and armament internally, which limits the payload. By way of comparison, the F-117 carries only two laser- or GPS-guided bombs, while a non-stealth ...

The FAA granted a waiver to a Swiss firm, Phoenix Air Unmanned, to check their model of the uncrewed helicopter in america. Excessive-altitude drone supply packages have ...

Zurich, Switzerland, 17 June 2025 - SwissDrones, a leading provider of advanced aerial intelligence solutions and long-range unmanned helicopter systems, announced its first ...

Since that time, the Alvin program at Woods Hole has matured into a highly reliable and productive diving program fully integrated into a series of long ...

Trieste is a Swiss-designed, Italian-built deep-diving research bathyscaphe. In 1960, it became the first crewed vessel to reach the bottom of Challenger Deep in the Mariana Trench, the ...

The Northrop Grumman RQ-4 Global Hawk is a high-altitude, remotely-piloted surveillance aircraft introduced in 2001. It was initially designed by Ryan ...

An autonomous aircraft is an aircraft which flies under the control of on-board autonomous robotic systems

Swiss fully automatic unmanned down-the-hole

and needs no intervention from a human pilot or remote control. Most contemporary ...

SDO 50 Helicopter UAV The SDO 50 is a state-of-the-art unmanned helicopter with a flight endurance of over 3 hours and the ability to operate day or night in ...

SwissDrones has launched the SDO 50 V2 multipurpose Vertical Take-Off and Landing (VTOL) helicopter UAV (unmanned aerial vehicle) in the ...

The Sandvik Leopard DI650i is a precise, fully automatic blasthole drill. Sandvik Mining and Rock Solutions is evolving its Leopard DI650i down ...
