

Tess engineering drilling rig

Who is Tess?

TESS, originating from Norway, is a worldwide supplier of products and services, mainly focused on oil & gas, aquaculture, contractors and the public sector. Through 50 years of service, TESS has become a recognised, leading supplier within the oil and gas sector.

Why should you choose Tess?

Through 50 years of service, TESS has become a recognised, leading supplier within the oil and gas sector. Our mutual success is based on hands-on management, valuing employees, innovation and client-driven organisation.

What kind of drilling machines does Tescar offer?

In addition to the 'mini-drills', Tescar offers a range of medium-sized piling machines with a torque of 50 kNm to 100 kNm and a weight of 16 t to 30 t. The most important feature that makes Tescar's drilling machines unique is their versatility and the ability to convert each machine into different working configurations.

Who owns TecSAR drills?

In 2018, after a thorough company restructuring, the Tescar brand was acquired by Mr Tonti's son, Mirco, and is now part of the company Tonti Trading Srl. History The Tescar brand is recognised all over the world as identifying the most famous compact sized drills, specialised for working in areas with limited access and low construction sites.

Who is T&T Engineering Services?

T&T Engineering Services, Inc., a Schlumberger company, was founded in 1999 and acquired by Schlumberger in 2015.

What makes Tescar a great excavator?

One of the main features of Tescar machines has always been the use of high quality components, starting with the most popular excavator bases, such as CATERPILLAR, HITACHI, BOBCAT, KUBOTA, KOMATSU, EUROCOMACH, JCB up to the recent (and successful!) partnership with CASE, whose main model range is manufactured in Italy!
