

## Which company should I contact for mine rock drill construction

What services does Cascade Drilling offer?

Cascade Drilling provides a full range of environmental and geotechnical drilling services. Regardless of the lithology or location, Cascade Drilling has the right equipment, experience, and specialized expertise to do the job. We offer sonic and conventional drilling technologies.

Who is rock drilling & blasting?

We are experienced professionals in rock drilling and blasting. Our teams ensure the continuation of our client's success. We have successfully completed projects all across the United States. As the demand for natural resources increases, so will your need for innovative methods for accessing them.

What types of drilling technologies do you offer?

We offer sonic and conventional drilling technologies. Our fleet includes track and truck-mounted equipment and limited access rigs for tight spaces, low overhead conditions, and over-water work allowing us to access almost any drill site.

Who is Cascade Drilling?

We are the only provider of integrated national field services that characterize, investigate, and remediate environmentally contaminated sites. Cascade Drilling provides a full range of environmental and geotechnical drilling services.

How accurate are the drills?

Our drills are guaranteed to be accurate to the 1/10 of a degree with the help of an Angle Inclinometer. All of our rigs are also equipped with dry dust collectors and water injection systems to minimize the exposure to potentially harmful dust and particulates.

Our clients include exploration and mining companies, financial and government institutions, and engineering, procurement and construction management (EPCM) firms.
